

Barrington Hall The Steel Cut Coffee

Is just pure Mocha and Java prepared in a new way. The coffee berry is cut up (not ground) by knives of almost razor sharpness into small uniform particles. Thus it is not crushed, as by the old method of grinding, and the little oil cells remain unbroken. The essential oil (food product) cannot evaporate and is preserved indefinitely. This is one reason why a pound of Barrington Hall will make 15 to 20 cups more of full strength coffee than will any coffee ground the old way; why it excels all other coffee in flavor and why it will keep perfectly until used.

But the main thing about Barrington Hall Coffee is that it can be used without ill effect by those who find ordinary coffee injures them, because the yellow tannin-bearing skin and dust (the only injurious properties of coffee) are removed by the "steel-cut" process. A delicious coffee not a tasteless substitute.

Price, per pound,

REPUBLICAN TOTALS IN CLATSOP

RESULT OF FRIDAY'S PRIMARY ELECTION AS IT APPLIES TO THE NOMINEES OF THE DOMINANT PARTY.

The morning Astorian had intended to offer its readers a full compendium of the recent primary vote in Clatsop county, but believes it is quite as well to defer the detail until after the general election, when the figures will be of more exceeding interest; and in lieu thereof, publishes the totals of the Republican expression as it stands after the official count which was made and recorded yesterday; and this will be supplemented by the Democratic totals in tomorrow's issue. The Republican line-up is as follows:

	City Total	Rep. Total
U. S. Senate		
H. M. Cake	103	198
C. W. Fulton	927	1225
Rep. in Congress		
W. R. Ellis	297	439
T. T. Geer	412	540
G. S. Shepherd	198	293
Supreme Court		
R. S. Bean	732	1035

SENATE COMMITTEE

Reported Naval Appropriation Bill to the Senate

IT CARRIES \$111,546,500

On the Battleship Program the Committee Adopted the Policy of the House Making no Change in the Provision for Two Vessels.

WASHINGTON, April 20.—After consideration for less than two hours the Senate committee on naval affairs today reported the naval appropriation bill to the Senate. It carries \$111,546,500, an increase of \$7,579,000 over the amount of the bill as it passed the House. On the battleship program the senate committee adopted the policy of the house, making no change in the provision for the two vessels. The President's message advocating the construction of four vessels was not considered as it was known that the committee was unanimously opposed to that program. The important amendments include an increase of 20 per cent in the pay of the officers of the navy and the civilian professors and instructors at the naval academy and 10 per cent in the pay of the enlisted men, \$140,000 is appropriated for Puget Sound navy yard, at Bremerton.

DEATH FROM PIN PRICK.

Nurse in Contagious Ward Dies From Blood Poisoning.

NEW YORK, April 20.—One of the most popular and efficient nurses of the Riverside Hospital, on North Brother Island, Miss May Belle Strawmiski, has given up her life calling. Riverside Hospital is a city institution given over to the treatment of contagious diseases exclusively, and about three weeks ago Miss Strawmiski was in charge of some diphtheria patients. She pricked her thumb in the apparel of one of her patients and thought nothing of it. In a few days, however, it developed that the pin was infected and Miss Strawmiski was found to be suffering from a violent attack of septicemia. Ordinarily an operation on the injured thumb or an amputation of the arm would have saved the life of the sufferer but in the case of Miss Strawmiski the poison had been so virulent and spread so rapidly that all efforts to save her life proved futile and she died yesterday.

Dr. Westmoreland, in charge of the hospital, says during his two year's service there Miss Strawmiski was one of the most fearless of nurses, who never hesitated when her duty called her to positions of danger.

BANQUETTING CORTELYOU.

UTICA, April 20.—The annual banquet of the Utica Chamber of Commerce tonight large was attended by business men of the city and vicinity. Guest of honor and principal speaker was Secretary Cortelyou, who spoke on "Business and citizenship."

MANY SHOTS FIRED.

Attempted Assassination of President of Guatemala.

SAN FRANCISCO, April 21.—A

message from Guatemala City was received tonight by the Guatemalan consul here, stating that an attempt was made last night to assassinate President Cabrera of Guatemala. Many shots were fired at him, but only one struck him in the hand. Other particulars are not contained in the message.

CURRENCY COMMISSION.

To be Appointed by the House to Draft a Currency Bill.

WASHINGTON, April 20.—The house committee on banking and currency today voted to lay on the table the financial bill offered by Vreeland as a substitute for the Aldrich bill and decided to report favorably the bill recently introduced by Chairman Fowler providing for currency commission consisting of 43 members, 11 members of the Senate, 11 of the house and 21 others who must be citizens of the United States. Vreeland appeared before the committee and made a long argument in favor of his bill saying it would be criminal negligence in Congress to adjourn without passing some measure for protection in the event of another panic this fall. He did not however think this panic imminent.

NEW USE FOR WASTE PAPER.

The writer gathered together a number of old Sunday supplements. Shade of Julius Caesar, famous for laconic despatches, what verbosity characterizes our literary efforts of today! Those Sunday supplements, vari-colored, voluminous, formidable according to avoirdupois measure at least, rose mountains high in kitchen corner and in cellar. The cry of the housewife was "burn 'em up, for pity's sake."

But a more poetic fate was in store for the Sunday sups. They were destined to be soaked and ground to pulps and transformed into picturesque designs for the home.

It took a lot of soaking to soften those Sunday sups to the required consistency. They had to be left in water for three days and nights before it was deemed desirable to continue the experiment with them. After this prolonged soaking the paper was found to be in shape to permit of its being pulled apart into shreds small enough and soft enough to be passed through the domestic meat grinder.

This was the second process. After it came through the meat grinder the paper had assumed a greenish hue, quite artistic and attractive and the shreds had become small particles of pulp, soft and pliable. With this material the experiment was tried of fashioning figures. They looked very pretty and odd, but something was wrong. The mass would not bind. Its cohesiveness was lost when the pulp dried. It simply disintegrated and crumbled apart.

The pulp was soaked again and this time some liquid glue was mixed in with it and the mass kneaded together until sufficient material of the combined kind had been prepared for another experiment. The figures fashioned of this material—simply paper pulp and a little liquid glue—held as firmly as cement.

The above is an extract from a very entertaining article in the Technical World Magazine for May. It is written and illustrated by H. D. Jones and furnishes an entirely novel idea, which may prove very valuable to seekers after useful home arts.

A SEA IDYL.

(Written for Morning Astorian).

The moon sends down its silver beams
To the deep, dark ocean caves;
But, when each moonbeam strikes the deep,
Awhile in the surf it plays.

And the restless waves wash to and fro
Pursuing the gleams of light,
And the loud waves sing, and the deep caves ring,
Awaking the echoes of night.

And the great, white horses that live in the sea,
Which the merboys love to ride,
Come up to sport in the surf awhile
And toss their white manes in the tide.

In the shoals by the silver moonlit strand,
The schools of dolphins play;
And the fishes leap in the pale, white light,
Leaving silver trails on the bay.

And the pearly shells, washed up by the tide,
Sing soft as the waves retreat,
And to the moonbeams, which paint them bright,
The song of the surf repeat.

—Eleanor Palmer.

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the approval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

ADDITIONAL LOCAL NEWS

Back From New York—

Raphael Bonham, inspector of the Federal Immigration Service, at this port, who has been to New York on a departmental errand, to-wit, the conveying of a French subject for deportation, discovered on this coast in derogation of the immigrant laws, has returned from his mission; and with Mrs. Bonham and their little daughter Mildred, are ensconced at their Fifth-street home, with the brother of Mrs. Bonham, Ted Holmes of Salem, as their guest. All are glad to be back in Astoria. Mrs. Bonham was the guest of friends and kinsmen in Portland during the inspector's absence in the East.

The "Tenacious" in Port —

Captain Stewart, of the Fort Canby life saving station, with Surfman Britt, were in the city yesterday, having brought up the new and handsome motor life-boat, lately sent to their station, for certain attachments to be made at the Astoria Iron Works, notable among which will be a propeller-shield, to keep that engine of destruction entirely clear of fish-nets, in the midst of which it will have to operate frequently. Captain Stewart says the "Tenacious" is a magnificent boat in action and he and his men have tried her out thoroughly in the surf since she arrived and is a success in every way.

Aged Pioneer Passes Away—

John McLoughlin, an honored and respected citizen of Hammond, died Sunday morning at the residence of his daughter, Mrs. E. M. Lally. Mr. McLoughlin was born in County Galway, Ireland, in 1827, being 81 years of age. He came to Hammond 15 years ago where he has continuously resided. He leaves a daughter, Mrs. E. M. Lally and two sons, Lawrence and Martin McLoughlin, and many friends to mourn his loss. His wife died 32 years ago, on Easter morning, within one hour of the death of Mr. Loughlin. His love of home, of friends, with a disposition of doing good in this world, endeared him to all who knew him. He was an exemplary Christian gentleman, and died as he had lived, strong in faith. The funeral occurred yesterday afternoon, conducted by Father Waters and the interment was in Ocean View.

REVOLVER BATTLE.

CHICAGO, April 20.—During a revolver battle with three men, believed to be burglars or highwaymen, Policeman Anthony McGeoghegan was shot and dangerously wounded last night at 40th street and Vincennes ave. Later William Weber, believed to be one of the policeman's assailants was found unconscious in a stone yard near the scene of the battle, suffering from two bullet wounds. Two other men heavily armed were arrested while running through an alley. McGeoghegan may recover. The wounded prisoner is expected to die.

REFUSED TO INSTRUCT.

RENO, Nev., April 20.—A special from Winnemucca to the State Journal says the Republican state convention today refused to instruct its delegates for Secretary Taft for

the presidential nomination by a vote of 86 to 24.

LANGDON MARRIED.

MODESTO, Cal., April 20.—District Attorney Langdon of San Francisco and Mrs. Myrtle McHenry, the wealthy widow of O'Ramil McHenry, were quietly married here today.

A CARD.

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold. Cures la grippe coughs, and prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. T. F. Laurin, Owl Drug Store.
